AEROSOL FOAM INTERIOR CLEANER

M-III FOAM SALON CLEANER

The foam interior cleaner quickly removes even deeply embedded dirt, unpleasant odors and refreshes the air in the car. Removes most stains from tea, coffee, milk, juices, blood, lipstick, engine oil, and more. It is used to clean the entire interior of the car, including vinyl and plastic upholstery, dashboard, moldings.

Method of Application:

The aerosol can must be shaken for 2-3 minutes. Spraying is carried out from a distance of 20-30 cm on the treated surface. Spread the foam evenly with a clean cloth or sponge. Wait 20-30 seconds and treat the surface with a dry cloth or sponge. Use a brush for rough surfaces. After cleaning, wipe the surface with a clean cloth or sponge.

Packaging:

Cylinder: 750 ml.

CREAM FOR ELASTICITY AND SHINE OF LEATHER MATERIALS

M-741 DELIZIA

A powerful nutrient for restoring the texture and color of leather goods. Inhibits the aging processes of the skin, gives it elasticity and shine. Protects against UV exposure. Also, the cream can be used with new skin to prevent abrasion and cracking.

Method of Application:

The cream is easy to use. It is necessary to apply the cream evenly with a napkin or soft cloth without rubbing it into the surface. Allow the cream to absorb into the skin for 20 minutes, then remove excess. You can repeat this procedure if necessary.

Attention! Delicia cream can only be used on natural skin!

In case of severe skin damage, it is recommended to apply the cream in large quantities and allow it to be absorbed during the day. Active treatment of sutures is recommended, since in them the process of skin destruction is most pronounced. Leather roofs of convertibles should be treated more often in the summer to protect the skin from the harmful effects of ultraviolet radiation.

Packaging:

Can: 150 ml.

LEATHER CLEANER-CONDITIONER

M-740 LEATHER CLEANER

Special composition renewing leather parts of car upholstery, designed to restore the appearance and elasticity of leather materials.

It has a special composition that renews leather upholstery parts of the car interior. In the process of cleaning it eliminates unpleasant odors in the car interior.
